

Maths Lab

Vidyalaya has a well-equipped maths -lab as per the guide lines issued by the CBSE and navodaya vidyalaya samiti. The lab has been established in 2009 to promote activity based teaching in mathematics. Activity based teaching of subject like maths makes teaching more interesting and comprehensive.

According to the syllabus of CBSE 20 Mathematical activities are allotted to each junior class from VI to X based on topics of their NCERT books. Out of these 20 activities ,10 activities are performed before summative assessment II and 10 activities are performed after summative assessment I and before summative assessment II . Maximum 6 marks are given to the students in the final result on the basis of their performance in the activities. These activities develop creativity, scientific attitude, thinking skills and basic knowledge in the students.
